Portfolio: [sbn1413.github.io/saravanabavan\\_portfolio](https://sbn1413.github.io/saravanabavan_portfolio)

## PROFESSIONAL SUMMARY

---

Full Stack Developer with over 7 years of experience delivering end-to-end web applications using Angular on the frontend and Node.js (Express), Laravel, and PHP on the backend. Proficient in SPA architecture, RxJS, OOP concepts, RESTful API development, JWT authentication, caching, database schema design, and payment gateway integration. Experienced across MySQL, SQL Server, and MongoDB.

## PROFESSIONAL EXPERIENCE

---

- Architected and delivered full stack SPAs using Angular (frontend) with Node.js and Laravel backends, end-to-end.
- Built Angular SPAs with RxJS-driven data flows, Reactive Forms, lazy-loaded modules, role-based and routing-based route guards, and reusable component libraries.
- Designed and developed RESTful APIs in Node.js (Express) and Laravel with JWT authentication, middleware, input validation, and caching.
- Designed MySQL and SQL Server database schemas with optimised queries and indexing for production performance.
- Integrated payment gateways (Razorpay and CCAvenue) with secure transaction flows and webhook callbacks.
- Delivered production-grade web applications using Angular and Node.js across education, industrial, and corporate sectors.
- Individually designed and built the Angular frontend, Node.js backend, and SQL Server database for a leading industrial client with branches across Europe, Asia-Pacific, America, and India — a 5+ module system live in production for 5+ years, with constant major upgrades delivered in recent years.
- Built a School Admission Management System with automated open/close scheduling, multi-step registration forms, document upload, admin dashboard, and yearly DB reset.
- Developed a Multi-Grade Admission System with automated admission scheduling, grade-specific controls, yearly reset, and historical data archiving.
- Developed RESTful APIs in Node.js (Express) and Laravel powering Angular SPAs and third-party integrations.
- Maintained 72+ web applications and websites across Angular, Node.js, WordPress, CodeIgniter, PHP, and static HTML platforms with 99%+ uptime SLA.
- Implemented CI/CD pipelines that reduced release cycle time and deployment errors across multiple client projects.
- Took over and maintained a legacy .NET Framework application for an education school with online fee payment — added major new functionality, modified existing features, fixed bugs, and ensured stable production operation.
- Built Angular SPAs with hands-on experience in component architecture, routing, and API integration.
- Built and maintained PHP/HTML sites handling both frontend UI and backend logic.
- Gained experience in client interaction, requirements gathering, and translating wireframes into functional interfaces.

## EDUCATION

---

### Bachelor of Computer Application (BCA)

Rajiv Gandhi Arts and Science College, Puducherry | 2016 – 2019

## TECHNICAL SKILLS

---

**Frontend:** Angular, Angular CLI, TypeScript, RxJS, Reactive Forms, Lazy Loading, Route Guards, Auth Guard, Services, Dependency Injection, JavaScript (ES6+), AJAX, HTML5, CSS3, Bootstrap

**Backend:** Node.js (Express), PHP, Laravel

**Databases:** MySQL, SQL Server, MongoDB (NoSQL), Database Schema Design, Query Optimisation, Indexing

**API & Architecture:** OOP Concepts, RESTful API Development, JWT Authentication, Middleware, Caching, MVC, Payment Gateways (CCAvenue, Razorpay)

**CMS:** WordPress

**Server:** Linux Web Hosting (WHM/cPanel), Windows Server, CI/CD Pipelines, DNS/SSL

**AI-Assisted Development Tools:** GitHub Copilot, Claude Code

**Tools:** VS Code, Visual Studio, SSMS, phpMyAdmin, Postman, npm, Composer

**Version Control:** Git, GitHub

## WORK EXPERIENCE

---

### Senior Developer

Newlineinfo Corp (Payroll via Emergere Computing Solutions, Coimbatore) | July 2025 – Present | Puducherry (Remote)

### Senior Developer

Newlineinfo | November 2020 – June 2025 | Puducherry, India

### Junior Developer

Newlineinfo | August 2019 – October 2020 | Puducherry, India

## CERTIFICATIONS

---

**Claude Code in Action** – Anthropic Education (March 2026)

## AWARDS & RECOGNITION

---

### Developer of Excellence Award

Newlineinfo Corp | Awarded for outstanding technical contribution and consistent delivery quality

## KEY PROJECTS

---

- **Enterprise Digitization System:** Multi-module system digitising a leading industrial client's manual notebook-based operations — the client operates branches across Europe, Asia-Pacific, America, and India. The system covers 5+ modules and continues to grow, live in production for 4+ years.
- **School Admission System (CodeIgniter):** Automated open/close scheduling, student registration, document upload, admin dashboard, and yearly database reset — enabling fully client-operated enrollment cycles.
- **Multi-Grade Admission System:** Admin-configurable platform with automated open/close admission scheduling, grade-specific controls, yearly reset for fresh admission cycles, and historical data archiving.
- **School Fee Payment Portal:** Payment gateway integration into a school management portal for secure online fee collection from parents.

## CORE STRENGTHS

---

Full Stack Application Architecture • Angular SPA & Node.js API Development • OOP Concepts • RESTful API Design • JWT Authentication & Security • Caching • Database Schema Design • Client Interaction & Requirements Gathering • Project Delivery Under Deadlines
